financial policy

Dear Patient,

Welcome to Peace Arch Cardiology. We take pride in our job of taking care of your cardiovascular health. We are your partner in your health care. To assist with payment for services, we will bill your health care insurance company for our services provided. Also, we will collect co-pays at the time of service. You will receive a statement from us for any remaining balance after your insurance has paid.

If you are paying privately for our services, we expect full payment at the time of service, and we will apply a 15% discount to the total amount due.

If any check you have written is returned due to non-sufficient funds, we will add a service charge of \$20 to your account. You will be asked to remit the entire amount within two weeks.

If you are having financial hardship, please call us. Our business office will work with you to arrange a monthly payment plan. After 90 days, if you fail to respond to our billing statements, your account will be referred to our Collections Department.

If you miss a scheduled appointment without giving our office 24-hour prior notice, there may be a \$50 charge.

I have read and fully understand the Financial Policy of Peace Arch Cardiology.
